APPLICATION FOR PERMISSION TO CHANGE POINT OF DIVERSION, MANNER OF USE AND PLACE OF USE OF THE PUBLIC WATERS OF THE STATE OF NEVADA HERETOFORE APPROPRIATED

Date of filing in State Engineer's Office	OCT 17 2000
Corrected application filed	
Map filed	OCT 30 2000
The applicant John M. & Margaret H. Wia	******* nt, hereby makes application for permission to change of a portion of water heretofore appropriated under

1. The source of water is Underground	
2. The amount of water to be changed 1.67 c.f.s., 60 afa	
3. The water to be used for Irrigation and Domestic	
4. The water heretofore permitted for Irrigation and Domestic	
5. The water is to be diverted at the following point SW¼ NW¼, Sec. 30, T.14N, R.26E, MDB&M or at a point from which the NW Corner of Sec. 18, T.14N, R.26E, MDB&M bears N05°12'02"W, a distance of 13,097 feet.	
6. The existing permitted point of diversion is located within SE¼ NW¼, Sec. 26, T.14N, R.26E, MDB&M or at a point from which the W¼ Corner of said Sec. 26 bears S 89°24'W, a distance of 2608.30 feet.	
7. Proposed place of use W½, Sec. 19, W½ N	W1/4, Sec. 30, T.14N, R.26E, MDB&M (25 acres)
8. Existing place of use A portion of the SW1/4NW1/4, Sec.26, T.14N, R.26E, MDB&M (15 acres)	
9. Use will be from January 1 to December	31 of each year.
10. Use was permitted from January 1 to December 31 of each year.	
11. Description of proposed works Well, pump and distribution system	
12. Estimated cost of works \$15,000.00	
13. Estimated time required to construct works 1 year	
14. Estimated time required to complete the a	pplication of water to beneficial use 5 years
	with water under 21946 to irrigate 94.74 acres. to return this water to non-supplemental use in the

Protested_

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion and place of use of a portion of the waters of an underground source as heretofore granted under Permit 15946, Certificate 5473, is issued subject to the terms and conditions imposed in said Permit 15946, Certificate 5473, and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

If any water under this permit is cancelled, withdrawn, or any water is not put to beneficial use, it will revert to the groundwater source and not back to the base water right.

The total combined duty of water under Permits 66887, 66888, and any waters of the Walker River Decree and any storage water appurtenant to the described 94.74 acres shall not exceed 379 acre-feet per year for the irrigation of said 94.74 acres. The permittee is responsible for insuring delivery of the entitled decreed and storage waters that are supplemental to these permits. In any year that the Walker River Irrigation District declares a full allocation of decreed waters to the priority years of C-125 claims supplemental to these Permits, then the place of use of the permits can be irrigated with underground water, but not to exceed a duty of 4 acre-feet per acre per year from the total of decreed, storage, and underground waters. (CONTINUED ON PAGE 3)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 1.0 cubic feet per second, but not to exceed 60.0 acre-feet annually, and not to exceed a yearly duty of 4.0 acre-feet per acre of land irrigated from any and/or all sources.

Work must be prosecuted with reasonable diligence and be completed on or before:

April 20, 2003

Proof of completion of work shall be filed before:

May 20, 2003

Water must be placed to beneficial use on or before:

April 20, 2006

Proof of the application of water to beneficial use shall be filed on or before:

May 20, 2006

Map in support of proof of beneficial use shall be filed on or before: **May 20, 2006**

IN TESTIMONY WHEREOF, I, HUGH RICCI, P.E.,

State Engineer of Nevada, have hereunto set

my hand and the seal of my office,

this 15th day of, October A.D. 2001

State Engineer
